This set of files contains CMAP Travel Tracker Survey Data for the Six-County Region.

The data is stored in four files with different levels;

1. hh2rtasb.sas7bdat   - Household Level
2. person2rtasb.sas7bdat   - Person Level
3. trips2rtasb.sas7bdat   - Trip Level
4. transitrosterrtasb.sas7bdat   - Transit Roster Data at trip level.

The data files are provided in both SAS and SPSS formats.

To open the files in SAS please run the SAS command file
"CMAP_Survey_Data_Formats.sas". This file will load the formats.
Do not forget to change the working directory location for the LIBNAME
command.

To open the files without formats in SAS please add the option "nofmterr"
to the options line.

Please let us know, if you encounter any problems in openning the files.
